<b>3. Site and environmental update</b>	
JH - we have been unable to transfer as many loads to Sands Farm as would like so levels are higher than would normally be held there. No odour or litter issues. No environmental issues to report. JH - there have been a few issues with lithium ion batteries being put out incorrectly for kerbside collection. VH – advised that WC are launching a new campaign at Christmas and New Year on batteries and rechargeable items that can be collected from kerbside. Messaging will be centred around the dangers of disposing of batteries and small electrical items incorrectly. JH – there are increasing numbers of people visiting the site looking for the HRC as the signs from the road are obscured by overgrown hedging. VH – raised that she will arrange to get this fixed.  <u>Environmental update</u> No environmental update.

<b>5. Any other business</b>
